ELIGIBILITY

You are eligible for this plan if you are a non-US citizen, you must have a current passport or visa and are temporarily residing outside your home country/country of permanent residence.

Your dependent spouse and your dependent children are also eligible for coverage under your plan if they hold a valid visa to the U.S., and you pay the premiums due for each covered dependent. For purposes of this insurance, if you or your covered dependents incur accident or sickness benefits in your, or their, home country (passport country) or in your, or their, country of permanent residence (location in which you or they permanently reside), such benefits are not covered under this plan. Permanent residents of the U.S. or persons who have applied for permanent residency in the U.S. are not eligible for coverage under this plan.

MEDICAL EVACUATION

Benefits will be paid for covered expenses up to the maximum stated in the summary schedule of benefits if, as a result of an injury or sickness commencing during the period of coverage, the Plan Participant is hospitalized for at least seven (7) consecutive days, and as a result of such injury or sickness and following such hospitalization the Plan Participant requires emergency medical evacuation. An emergency medical evacuation must be ordered by a local attending physician who certifies that the severity of the Plan Participant's injury or sickness warrants the emergency medical evacuation.

Emergency Medical Evacuation:

If the local attending physician and On Call International (including its designated physician) determine that transportation to a hospital or medical facility or your return to your primary place of residence is medically necessary to treat an unforeseen sickness or injury which is acute or life threatening and adequate medical treatment is not available in the immediate area, the transportation expense incurred will be paid for the usual and customary charges for transportation to the closest hospital or medical facility capable of providing that treatment.

The Company will pay the actual expense incurred, but not to exceed the Maximum Aggregate Benefit of \$100,000.

All expenses must be authorized in writing in advance. For authorization, contact On-Call International (866) 525-1959 or (603) 328-1959.

REPATRIATION OF REMAINS

In the event of a Plan Participant's death while covered under the policy, the Company will pay the actual expense incurred for preparation and transportation of their mortal remains back to the home country or country of permanent residence. If applicable, such action will be in accordance with any international requirements. On Call's assistance services include: locating a sending funeral home; coordination of consular services (in the case of death overseas); procuring death certificates; and assistance in transporting your remains to a funeral home nearest your permanent primary residence or to your permanent primary residence. Other assistance services that might be performed in conjunction with those listed above include: making travel arrangements for any traveling companions; identification and/or notification of next-of- kin.

The Company will pay the actual expenses incurred, but not to exceed the Maximum Aggregate Benefit of \$100,000.

All expenses must be authorized in writing in advance. For authorization, contact On-Call International (866) 525-1959 or (603) 328-1959.

BEDSIDE VISIT

In the event of a Plan Participant's covered hospitalization for more than 7 consecutive days, the Company will pay the actual expense incurred for the cost of an economy round-trip air or ground transportation ticket (up to the Maximum Aggregate Benefit of \$1,500) for one relative to travel to where the Plan Participant is hospitalized.

EXCESS BENEFITS

All coverages will be in excess of all other valid and collectible insurance, and will apply only when such benefits are exhausted.

Other valid and collectible insurance for which benefits may be payable include insurance programs provided by:

1. Individual, group or blanket insurance or coverage;
2. Other prepayment coverage provided on a group or individual basis;
3. Any coverage under labor management trusted plans, union welfare plans, employer organization plans, employee benefits organization plans, or other arrangements of benefits for individual of a group;
4. Any coverage required or provided by any statute, socialized insurance program;
5. Any no-fault automobile insurance; or
6. Any third-party liability insurance.

DEFINITIONS

Plan Participant means a person and dependent eligible for coverage as identified in the enrollment/application who is a non-United States citizen traveling outside of their home country and has his or her true fixed or permanent home and principal establishment outside of the United States and holds a current and valid passport for whom proper premium payment has been made when due, and who is therefore a Plan Participant under the policy.

Injury means bodily harm which results, directly and independently of disease or bodily infirmity, from an accident after the effective date of a Plan Participant's coverage under the plan document, while this coverage is in force as to the person whose injury is the basis of the claim. All injuries to the same Plan Participant sustained in one accident, including all related conditions and recurring symptoms of the injuries will be considered one injury.

Dependent means a Plan Participant's: Spouse and each unmarried child under age 26.

The foregoing age limitation will not apply to a Plan Participant's unmarried child who is dependent on the Plan Participant or other care providers for lifetime care and supervision, and incapable of self-sustaining employment by reason of mental or physical handicap that occurred before age 26. Proof of such dependence and incapacity must be

furnished to the company immediately upon enrollment or within 31 days of the child reaching the age limitation. Thereafter, proof will be required whenever reasonably necessary, but not more often than once a year after the 2-year period following the age limitation.

Spouse means lawful spouse (if not legally separated or divorced) or domestic partner or civil union partner.

Child means the Plan Participant's natural child, adopted child (or child placed in the Plan Participant's home for purposes of adoption), foster child, stepchild, or other child for whom the Plan Participant has legal guardianship (proof will be required). A child must reside with the Plan Participant in a parent-child relationship. NOTE: In the event the Plan Participant shares physical custody of the child with another parent, the requirement that the child reside with the Plan Participant will be waived.

Pre-existing Condition means any illness or injury, physical or mental condition, for which a Plan Participant received any diagnosis, medical advice or treatment, or had taken any prescribed medications, or where distinct symptoms were evident prior to the effective date.

Sickness means sickness or disease contracted and causing loss commencing while the coverage is in force as to the Plan Participant whose sickness is the basis of claim. Any complication or any condition arising out of a sickness for which the Plan Participant is being treated or has received treatment will be considered as part of the original sickness.

Medically Necessary means a treatment, drug, device, service, procedure or supply that is:

1. Required, necessary and appropriate for the diagnosis or treatment of a sickness or injury;
2. Prescribed or ordered by a physician or furnished by a hospital;
3. Performed in the least costly setting required by the condition;
4. Consistent with the medical and surgical practices prevailing in the area for treatment of the condition at the time rendered.

When specifically applied to hospital confinement, it means that the diagnosis or treatment of symptoms or a condition cannot be safely provided on an outpatient basis.

The purchasing or renting air conditioners, air purifiers, motorized transportation equipment, escalators or elevators in private homes, swimming pools or supplies for them, and general exercise equipment are not considered medically necessary.

A service or supply may not be medically necessary if a less intensive or more appropriate diagnostic or treatment alternative could have been used. We may consider the cost of the alternative to be the eligible expense.

A treatment, drug, device, procedure, supply or service shall not be considered as medically necessary if it:

- Is experimental/investigational
- Is provided for education purposes or the convenience of the Plan Participant, the Plan Participant's family, physician, hospital or any other provider;
- Exceeds in scope, duration, or intensity that level of care that is needed to provide safe, adequate and appropriate diagnosis or treatment and where ongoing treatment is merely for maintenance or preventive care;
- Could have been omitted without adversely affecting the person's condition or the quality of medical care;
- Involves the use of a medical device, drug or substance not formally approved by the United States Food and Drug Administration;
- Involves a service, supply or drug not considered reasonable and necessary by the Healthcare Financing Administration Medicare Coverage Issues Manual; or
- It can be safely provided to the patient on a less cost-effective basis such as out-patient, by a different medical professional, or pursuant to a more conservative form of treatment.

I confirm that I have satisfied myself that the coverage is appropriate for me and that I meet the eligibility criteria. The policy provides limited benefit short duration coverage pursuant to all of its terms, conditions, limits and exclusions. This insurance is not subject to, and does not provide certain insurance benefits required by, the United States’ Patient Protection and Affordable Care Act (“PPACA”). PPACA requires certain US citizens or US residents to obtain PPACA compliant health insurance, or “minimum essential coverage.” PPACA also requires certain employers to offer PPACA compliant insurance coverage to their employees. Tax penalties may be imposed on U.S. residents or citizens who do not maintain minimum essential coverage, and on certain employers who do not offer PPACA compliant insurance coverage to their employees. In some cases, certain individuals may be deemed to have minimum essential coverage under PPACA even if their insurance coverage does not provide all of the benefits required by PPACA. You should consult your attorney or tax professional to determine whether this coverage meets any obligations you may have under PPACA. This plan is not designed to cover US residents and citizens. This policy is not subject to guaranteed issuance or renewal.
